DIARY NOTES

DD/S

10 October 1963

- 25X1A9a 1. [REDACTED] telephoned to say that there seemed to be no objection to our proposed Headquarters Notice concerning the AAO Course. He wondered why we wanted to check it with the Executive Committee. I told him that I thought it should at least be checked with the Deputy Director (Plans). He thought that he would touch base with [REDACTED] informally but felt 25X1A9a sure that General Carter would sign this with pleasure.
- 25X1A9a 2. [REDACTED] was in to see me regarding several items:
- a. He said that, while they have checked out the equipment to be used when the National War College visits the Agency on Monday, 14 October, he thought that we should equip the booth with the proper equipment to avoid makeshift equipment in the aisles. (I told him that I would look into this.)
- b. Bill reported that General Carter's windup at the Clandestine Services Review Course was very good. He did notice, however, that this was a very poor classroom. Apparently the greatest difficulty is an air blower which is very noisy and makes it difficult for the speaker to be heard. (I want to look into this with Jim Garrison.)
- c. Bill reported that they have devised a way to run the next JOT Program in the Broyhill Building without using either R&S or the Headquarters Buildings.
- d. Bill also reported that Mr. Kirkpatrick instructed him to ask for an additional slot in the Foreign Service Seminar. He has done this, but George Morgan has not given us a reply; as a matter of fact, he did not appear too enthusiastic about it. (Our share of this budget is already \$38,000, and I hope that another slot will not increase it.)
- 25X1A9a 3. Jack Earman telephoned to inquire about what regulations we have to prevent an ex-employee from residing overseas after resigning in that same area. I told him that I thought this was a free country and that any regulations to prohibit this would be meaningless. I suggested that he check with the General Counsel, but I felt sure what the answer would be.
- 25X1A9a 4. [REDACTED] telephoned to brief me on the status of the apartment building which we own in [REDACTED] With the exception of one or two apartments, 25X1A6a

5. I discussed several things with Emmett Echols:

a. Emmett expressed his delight that Gates Lloyd was willing to take over the Chairmanship of the Insurance Task Force and that Gates will get going on this right away. H

25X1A5a1

b. I asked Emmett to revive the study initiated some months ago to arrange a place for our newly employed girls to live other than the [REDACTED]

25X1A5a1

c. Emmett inquired of me as to the status of our manpower regulations. He said that it was his understanding that they were drafted in May and sent forward to the Executive Director. (I would like to follow up on this.)

6. I discussed with Bob Bannerman and Emmett Echols the desirability of proceeding with the establishment of a Personnel Qualifications Register and the conversion of security records to magnetic tape. Both of these involve computer applications. There just doesn't seem to be any possibility of obtaining additional personnel authorizations for either of these projects, and there certainly is no possibility of absorbing this with "on-board" people. I suggested that we devise a project in which we would employ fully cleared, but part-time, personnel on a regular basis who would not count against our ceiling. Later in the day I checked this out with [REDACTED] who felt that this would be a good idea and that we could find the money. (I passed this on to Bob Bannerman and asked him to draft an appropriate project.) H

25X1A9a

7. [REDACTED] telephoned to request that I obtain from the Deputy Director (Support) students at the Industrial College the students' reaction to the Director's speech yesterday to the students of the National War and Industrial Colleges.

8. I [REDACTED] of the Africa Division were in to chat with me about [REDACTED] We have only about thirty people there now, and it is anticipated that we will need a good Chief of Support there in the very near H

25X1A9a future. Ultimately, [REDACTED] estimated that we may need 20 to 25 Support people to run this city. This is, of course, in addition to the technical people. (Actually, I think that his estimate is on the low side.) We all agreed, however, that there wasn't anything that we should do immediately, pending the results of the survey now under way.

25X1A9a 9. [REDACTED] also said at this meeting that John Bross had advised him that the Director had asked John to take a new look at the whole idea of CIA's becoming the fourth cryptographic agency and getting into the national interest intercept field. Personally, I am opposed to this and am going to say so in the memorandum now being produced by the Office of Communications outlining what we are doing for ourselves and what we are doing for others. H

10. Bob Bannerman tipped me off that the press was "onto" the Dunlap case and that there would be an official press release later today.

11. Bob also reported that the Safety Officer is concerned about some toxic fumes coming from some of the air conditioning vents at [REDACTED] and that 25X1A6a he is looking into this right away. (I should also follow up with the Office of Logistics.)

25X1A9a 12. I met with [REDACTED] to be briefed on the [REDACTED] 25X1A8b
25X1A8b [REDACTED]
25X1A8b [REDACTED] H
[REDACTED] rate of 350 acres located a few minutes away from the Headquarters Building. I expressed my reluctance to go along with this. I stated that I knew that the [REDACTED] had proposed that they take over all paramilitary training from the Office of Training and that this was the first step in this direction. I felt that we should do it consciously.

13. I discussed a number of things with Emmett Echols:

a. Emmett and Dr. Tietjen are both of the opinion that the Medical Staff evaluation will not produce any significant evidence that would alter our course of action in the case of [REDACTED]. The medical 25X1A9a evaluation will not be complete, however, until sometime early next week. I told Emmett to ask Otto Guthe for his recommendations on the assumption that the Medical Staff evaluation will not produce anything new.

25X1A9a b. The Deputy Director (Plans) has strongly urged the promotion of [REDACTED] to grade GS-16. I told Emmett that I had no objection.

25X1A9a c. Emmett advised me that Mr. Kirkpatrick was critical of the showing which [REDACTED] made before the selection panel for the Senior Service Schools a few days ago and also of the Office of Logistics

25X1A9a for nominating [REDACTED] who appeared not to know anything about the school for which he was recommended and, in fact, said that he had known only 36 hours before that he had been nominated for the school. (I want to follow up on this with the Office of Logistics.)

d. Emmett assured me that the [REDACTED] is 25X1A5a1 in order and has been checked out with the General Counsel.

e. Emmett advised me that the Ford Foundation had made a \$600,000 grant to Howard University to develop more Negroes for Government service. This was the subject of a meeting some months ago at which various agencies, such as the Department of State, AID, CIA, etc., were asked to guarantee that they would absorb a certain number of people so educated. Emmett took the position at that time that this Agency

25X1C4a

25X1C4a

25X1A6a f. Emmett said the NSA people are pestering him about personnel procedures for [REDACTED] on the assumption that they are going to staff it. In fact, he said that they are already recruiting. I told him to tell NSA that, insofar as we were concerned, if we should go ahead with the

25X1A6a [REDACTED] project we would staff it.
